

# One pipe end cap for all applications.

## The separable pipe end cap 129 TB from OBO simplifies your work.

Previously a small fault often resulted in a lot of work: The mounting of missing or faulty pipe end caps on conduits used to be an unpopular and elaborate task. Not any more – with the separable pipe end cap. Open, clip on, press together – and done! Without any disassembly of the installation. Needless to say, the separable pipe end cap also facilitates initial installation.

## Separable pipe end cap
